We

Doxis and Natasa Pargianas create women's shoes adhering to the philosophy,
shoe making is an art form, and as such it should be unique.

A small family factory was founded in the middle of the '70s in Thessaloniki, in northern Greece, by their father Nicolas Pargianas. Soon enough his creations, made exclusively of high quality leather materials, found their place among the most notable shoe shops of both Thessaloniki and Athens. Since the turn of the millennium Doxis and Natasa Pargianas, following the family tradition, create and present their exclusive line of products in their own boutique shop *Crescere con le scarpe* at the heart of Thessaloniki as well as through select retailers.

Armed with the priceless experience of having been taught by a master designer, Doxis and Natasa create shoes that combine classy elegance with novel design. Pleasing curves alongside arresting and comfortable shapes go a long way in highlighting the elegance and smoothness of walking on each woman's personal catwalk.
